## Summary

With a strong focus on detail and a commitment to excellence, I thrive in creating high-quality systems, demonstrating my technical expertise and leadership skills within software development teams, and guiding fellow software engineers in adopting best practices and processes.

As a Head of Engineering at Code Create, my current role involves guiding and mentoring multiple engineering teams, evaluating potential clients to grow the company's business, and leading the team responsible for preparing complete (technical and business) proposals in response to RfPs. I also oversee the end-to-end technical delivery of the company's projects and coordinate all client communications.

To broaden my impact, I frequently enhance code samples with insightful GitHub contributions derived from my customer experiences, thereby assisting others in overcoming similar challenges. I also like sharing my knowledge with the community by participating in various conferences and tech events as a speaker.

In my previous roles, I worked as an Azure Architect for Microsoft, where I accelerated and mitigated risks for Azure deployments at scale, enabling customers to confidently onboard to Azure. I also served as a technical and chapter lead of the corporate web banking product of a major Microsoft's FSI client.

## Technical Expertise:

- Languages: C#, JavaScript / TypeScript
- Front-End Development Frameworks: Angular, React
- Back-End Development Frameworks: ASP.NET Framework, ASP.NET Core
- ORM Frameworks: Entity Framework, Dapper
- Version / Source Control Software: Git
- Databases: MySQL, SQL Server, Postgres
- Software Development Processes: Agile (Scrum)
- Cloud Technologies: Microsoft Azure
- DevOps

# Experience

## Head of Engineering

Code Create

Sep 2023 - Present (1 year 8 months)

Guiding and mentoring multiple engineering teams, evaluating potential clients to grow the company's business, and leading the team responsible for preparing complete (technical and business) proposals in response to RfPs. At the same time, overseeing the end-to-end technical delivery of the company's projects and coordinating all client communications.

## Azure Architect

Microsoft

Apr 2022 - Jun 2023 (1 year 3 months)

Accelerating and mitigating risks for Azure deployments at scale, enabling customers to confidently onboard to Azure. At the same time working with the relevant Product Groups to contribute to the platform's growth and improvement. Finally, enhancing Azure samples with insightful GitHub contributions derived from the customer experiences, thereby assisting others in overcoming similar challenges.

## Team & Chapter Lead

Microsoft

Dec 2020 - Mar 2022 (1 year 4 months)

Technical lead for one of the corporate web banking teams and chapter lead of the corporate web banking product of a major FSI client. My duties involved: technical interviews, project delivery, production incident management, coaching engineers to follow architectural and code best practices.

## Consultant

Microsoft

Mar 2017 - Nov 2020 (3 years 9 months)

Worked well independently and as a Dev Lead on several teams to implement end-to-end web solutions for a major FSI client.

## Software Engineer

Athens Information Technology

Jun 2015 - Feb 2017 (1 year 9 months)

Developed web solutions and games for EU R&D projects.

## Researcher

Centre for Research & Technology Hellas (CERTH)

Aug 2014 - Feb 2015 (7 months)

# Education

## European University Cyprus

Master of Business Administration – MBA, Business Administration and

Management, General  
2024 – 2026 (Expected)

### **University of Thessaly**

Master of Science (MSc) Degree - Department of Electrical and Computer Engineering, Computer Engineering

2013 - 2014

MSc Thesis: "Specialized information systems of remedial and rehabilitation tourism"

### **University of Thessaly**

Bachelor of Science (BSc) Degree - Department of Electrical and Computer Engineering, Computer Engineering

2006 – 2011

BSc Thesis: "Services and web applications for local government"

## **Licenses & Certifications**

**Mobile App Coding School** - Coding School

**Microsoft Certified: Azure Developer Associate** - Microsoft

**Microsoft Certified: Azure DevOps Engineer Expert** - Microsoft

**Microsoft Certified: Azure Security Engineer Associate** - Microsoft

**Microsoft Certified: Azure AI Engineer Associate** - Microsoft

**CKAD: Certified Kubernetes Application Developer** - The Linux Foundation

**Microsoft Certified: Azure Network Engineer Associate** - Microsoft

**Microsoft Certified Trainer 2024-2025** - Microsoft

## **Honors & Awards**

**FY21 Q3 MCS AC&AI Spark Award Winner** - Microsoft

The Spark Award showcases teams and individuals that went above and beyond to drive successful business outcomes aligned to the Microsoft Consulting Services FY21 Business Priorities.
